

# SERIE RXB

## RXB-606-V7

6 X 600 X 400 mm.

6 x GN 1/1

9.100 W

270° C

92 Kg.

400 V - 50/60 Hz

### CARACTERÍSTICAS features

- |                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                           |
